At United Credit, we understand that your hard work is not just about numbers or targets—it is about building a better and more secure future for yourself and your family. That is why we review partner performance on a quarterly basis, recognizing those who consistently show commitment, quality, and growth. When a DSA or DMA performs well and achieves defined targets, the company goes a step further by supporting their long-term security through an insurance cover of up to ₹10 lakhs. This coverage is designed to include both the partner and their family, because we believe true growth means peace of mind for the people who matter most.
